DANGEROUS CONDITIONS / CONDITIONS DANGEREUSES

Valued Messer Customer,

At Messer, we value the safety of our employees as well as yours. We consider safety a shared responsibility, and in effort to ensure the safest standards possible, we want to request your assistance in ensuring safe access during the coming winter months. To achieve this shared objective, we ask for your support in maintaining a safe environment at your site during all seasons.

To ensure safe access to your facilities, please keep the areas where our drivers deliver and store cylinders, as well as any bulk tank access points, clear of any equipment, debris, snow, ice, or other obstructions. In winter, especially, it's critical to address snow and ice to minimize slips and other hazards.

Safe access for our drivers = Safe access for your employees

Thank you for your attention to this important matter and for your cooperation in making safety a priority for everyone involved.

Regards,

John Boakes
Director, HSEQ
